FUNDING AVAILABLE CERTIFICATE IV IN WORK HEALTH AND SAFETY

Workplace Dimensions, in partnership with Construction Skills Queensland (CSQ), are offering eligible participants funded places in Certificate IV in Work Health and Safety

CSQ is an independent industry-funded body supporting employers, workers, apprentices and career seekers in the building and construction industry.

These funded places are available to anyone 'on the tools' working in the Queensland building and construction industry that meet the eligibility criteria.

The program reflects the broad skills and technical capability that must be applied across a wide range of situations, workplaces, and systems. Specifically, this program focuses on developing the capability and skills required to apply a variety of solutions to unpredictable problems, to coach and guide operational leaders in the operation of a safety system, and have an advanced capability to evaluate data from a variety of sources.

Your only financial commitment is \$395 to secure your place which is fully refundable when deemed competent.

Go to www.workplacdimensions.com.au/funding/csq/ for the full listing of eligibility criteria.

Learning Outcomes

As a result of this program, learners will:

- Understand the legal framework and who is accountable to ensure a safe workplace
- Understand the requirements and accountability of a safety professional in the workplace
- Assist with monitoring a safe workplace
- Effectively consult and communicate on issues relating to the safety and health of the workforce
- Assist in the development of risk management actions
- Assist with implementing incident response procedures
- Support the continuous improvement of safety systems and processes

A 5 day, highly interactive program that uses real life workplace situations and contexts that focus on both internal organisational communication and external client, customer and supplier communication.
